1) Create awindows 2019Vmwith Ds1-V2 standard

I have created server 2019 data center. The snaps showing that I created a VM named testvm-01 with windows server 2019 data server OS and Ds1 V2 standard.

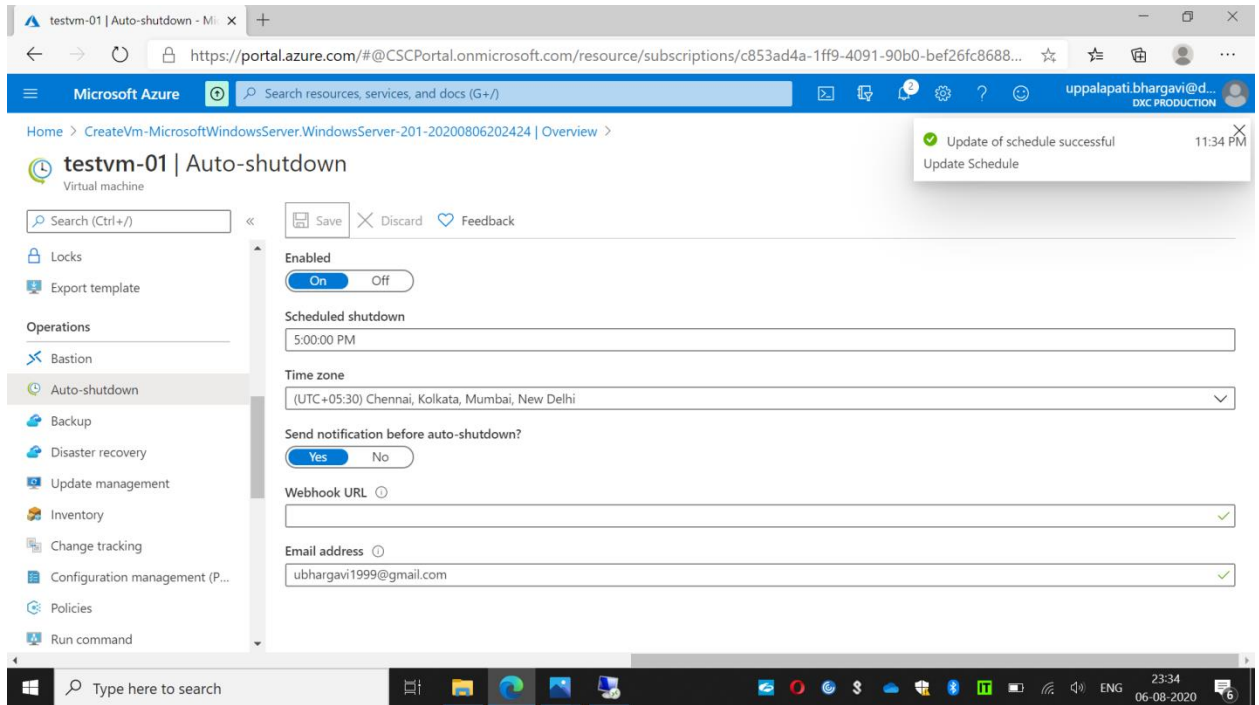

2) Attach one disk and partition into three.

I have created a disk of size 50GB and it split into 3 simple volumes.

3) Autoshutdown by 5:00 PM IST and before that it should raise an alert to email.
I have set shutdown at 5:00 PM. This system will shutdown at 5:00 PM automatically everyday
and before shutting down it will trigger an email to ubhargavi1999@gmail.com.

4) Install Microsoft antimalware extension in Vm.

I have installed Microsoft antimalware from extensions.

5) You should be able to login to the servers with two usernames.

PROPERTIES
For testvm-01
